SHADOW LAKE	OR-DEF-0676	Type: WF	Start: 08/28/2011 1426	Cause: L	Priority:		
Overhead Team Name: Vince Grace		Organization: Type 4 IC			Local: 1	GACC:	
Size: 10,000 ACRES	% Cnt/MMA: 70 %	Est Contain: 12/01/2011	Latitude: 44° 21' 7"	Longitude: 121° 49' 24"			
Location: 15 MILES WEST OF SISTERS				\$\$ Costs to Date: \$9,555,600			
Structures Threatened: NONE			Structures Destroyed: NONE				
Resources Committed:	Total Personnel:		Report Date: Oct 24, 2011 1200				
Agency	CRW1	CRW2	HEL1	HEL2	HEL3	ENGS	OVHD
Significant Events: No resources are working it now...there was a 20-person crew working rehab up until about week ago Rehab is complete on the WIF. As for the DEF side, Sisters RD has taken over any monitor/patrol status for their part. Vince Grace is the contact if there are any questions. Vince said that it would have to take a "season ending weather event" for this fire to be even called "100% contained".							
Remarks: This is the last "Updated" 209" until the Sisters District calls this fire 1005 contained.							
Observed Fire Behavior: No current fire activity.							
Planned Actions:							

Big Hump	WA-OLF-000124	Type: WF	Start: 08/31/2011 2000	Cause: H	Priority:

WXW	0	0	0	0	0	0	1
<p>Significant Events: Crews worked to strengthen containment and control lines around the fires and continued with extensive mop-up operations. The fire area experienced warmer and drier weather with stronger surface winds, this caused an increase in fire behavior on the Lonesome fire.</p> <p>Remarks: Heavy demobilization of resources in support of cost containment and right sizing. The total complex acreage will continue to increase, this increase in acreage will be tied primarily to the Lonesome fire which is burning within its containment/control lines and has a projected maximum spread area of 2160 acres.</p> <p>Observed Fire Behavior: Moderate intensity backing and flanking fire with dispersed intermittent torching. There has been short range spotting due to the flammable tree moss igniting and lofting up to 50' from the source. 1000hr fuels continue to smoulder and consume. Burning snags are continuing to fall in increased numbers causing some minor control problems.</p> <p>Planned Actions: Crews will continue to monitor the Lonesome fire, mop-up and improve line on other fires and continue to back haul excess suppression equipment and accountable property.</p>							

GARWOOD	OR-UPF-110142	Type: WF	Start: 08/24/2011 1800	Cause: L	Priority:		
Overhead Team Name: Atterberry		Organization: Type 3 IC		Local: GACC:
